

BLUEY'S HEPTATHLON

EVENT 1

THONG RACING

and it's not just running in your thongs (sandals)...

How to Play:

1. Each player picks one thong and grabs an adult.
2. Create a start line at the top of a stream or a running creek. Or you could create your own stream with a hose and tarp in the backyard.
3. Mark a finish point at the other end of your stream.
4. Call out "ready"- the players stand at the start line.
5. Call out "set" - the players each place their thong in the water on the start line, keeping one hand on the thong.
6. Call out "go" - the players let go of their thongs.
7. First thong to the finish point wins.

Rules:

1. You must start behind the start line.
2. You can't throw or push the thong at the start, just let go.
3. You can't help it down the stream unless it gets stuck, and then you must restart at the top of the stream.
4. You can't get in the way of other players thongs.
5. If one thong obstructs another without meaning to and wins, this is still a win.
6. If playing in a team, only one person can go from the team.
