

# BLUEY'S HEPTATHLON

## EVENT 4

# FLOOR IS Lava

### How to Play:

1. Create a start line and a finish line - both off the ground and a fair distance apart.
2. Between the two points, lay out soft toys, rugs, the sofa, cardboard or anything that is safe to climb or walk on.
3. You must get from start to finish without touching the ground.
4. Along the way you must collect 5 tokens. So make sure you have an easy to carry bag with you to put them in.
5. One at a time, each player will complete the course any way they want.
6. Whoever completes it in the best time, with all five tokens and without touching the ground, wins.
7. Make sure nothing breakable is in the way and that the area is safe to play in/on.
8. Each player takes turns to complete the course which will be timed using a stop watch. Reset the course each time if needed.

### Rules:

1. You can't touch the ground, or you need to start again, and the time keeps running.
2. You must get all your tokens to complete the course, or the time keeps going and you have to go back and get the ones you missed and make it to the end.
3. Be careful as you make your way through the course.
4. Tokens can be anything - buttons, marbles or even food.
