

WHAT YOU'LL NEED:

- Sticky tape and adhesive putty
- A small cardboard box like a shoebox
- Some scissors (you might need a grown-ups help when using these!)
- Lots of spooky imagination
- Some friends and family to come and watch

INSTRUCTIONS:

1. Print out the next sheets for your characters, props and backgrounds.
2. Taking off the lid of your shoebox, stick the background to the bottom of your box. We used adhesive putty so we could change them easily.
3. Standing it up on the side, you now have your stage.

4. Cut out the characters and props.

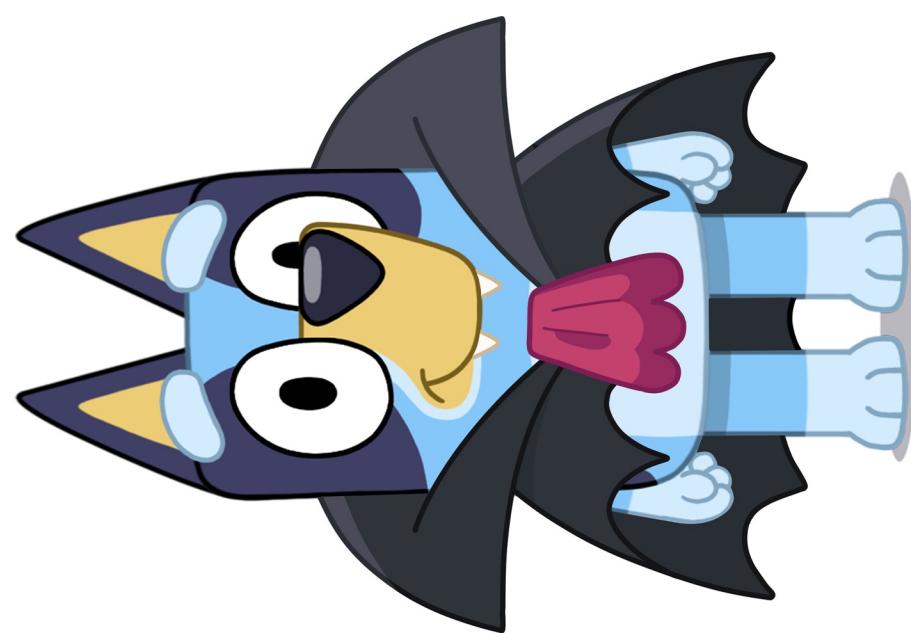

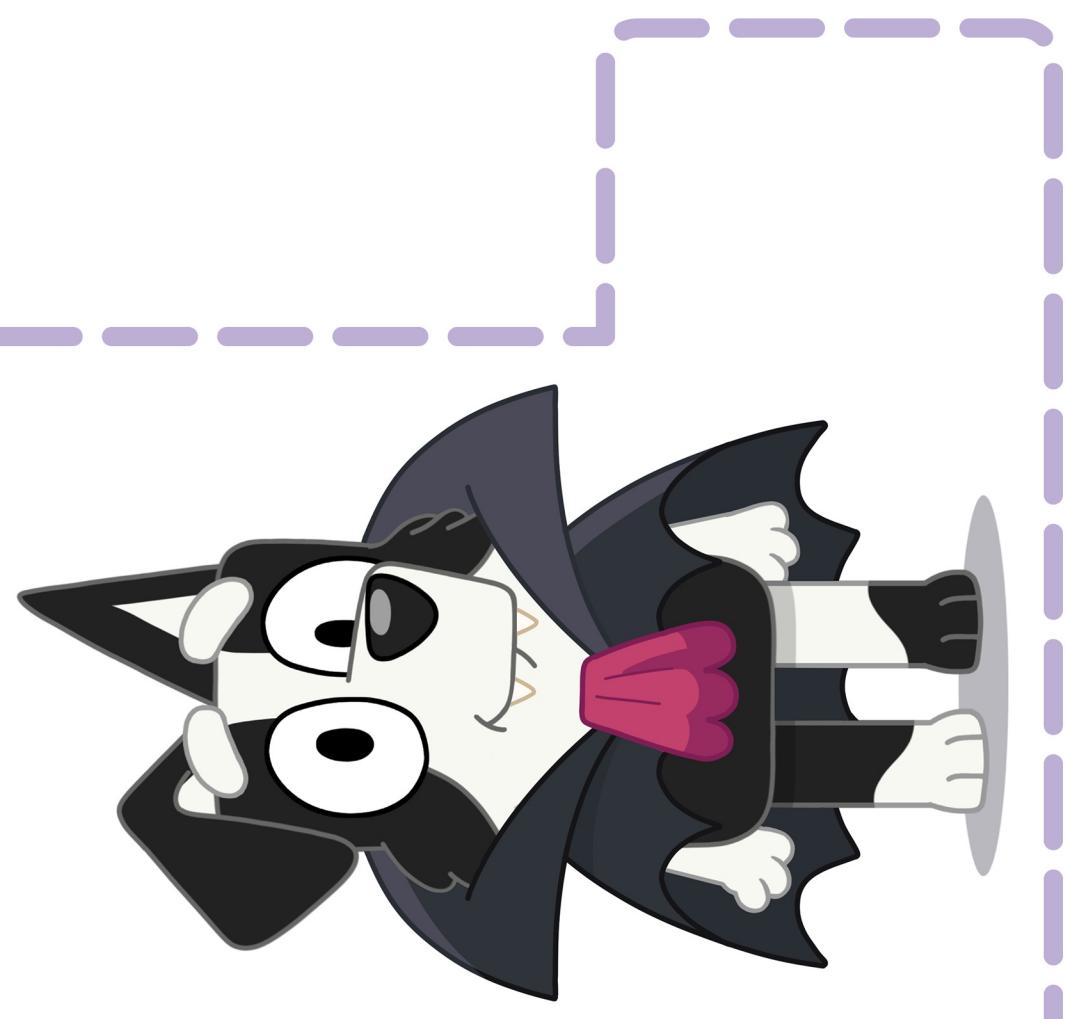

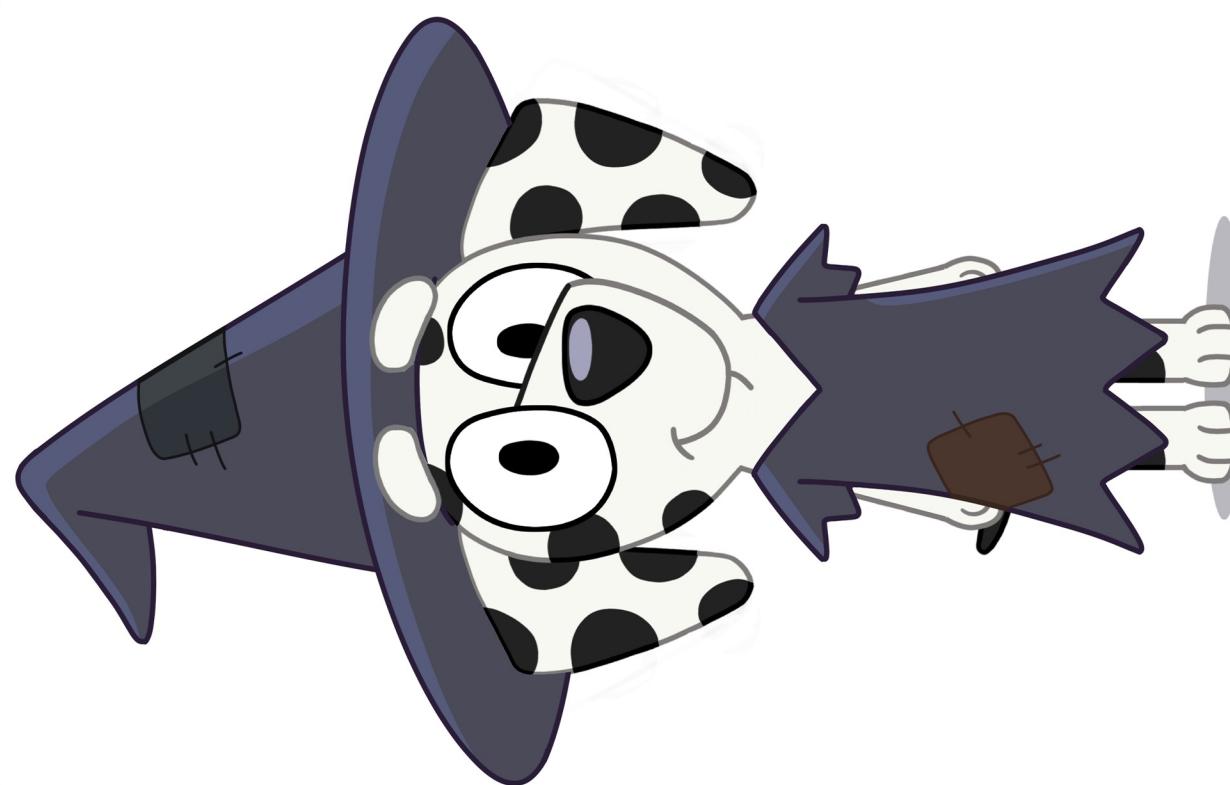

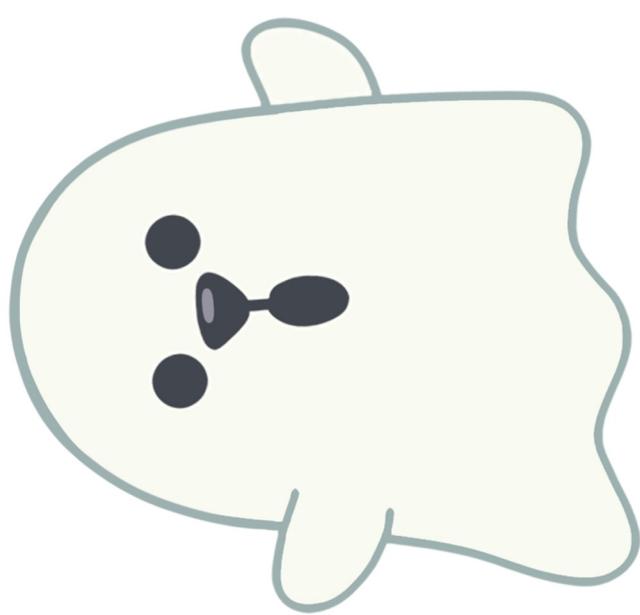

5. Holding the cutout characters, connect the tabs around your finger to form a loop. You can then use sticky tape to keep it together.

6. Cut out some extra props you might need for your show.

7. Now you're ready to perform your puppet show for friends and family! Don't forget, you can change your scene to make up a whole new spooky story.
